Introducing Fastrack

Fastrack is a new transport concept for the Thames Gateway area brought to you by Kent County Council, Arriva and other Kent Thameside partners.

Fastrack B provides a network of frequent service using state-of-the-art vehicles from Temple Hill, north of Dartford town centre, through to Gravesend town centre, providing local links along the route, including to both town centres and Bluewater, as well as Darent Valley Hospital, Greenhithe Rail Station and Ebbsfleet International Station.

- State-of-the-art vehicles in a striking two-tone blue and grey livery, with many more taking to the roads over the coming years as Fastrack expands in Kent Thameside.
- Journeys every 10 minutes for the main part of the day on weekdays giving a 'turn up and go' facility. If you just miss one you know you won't have to wait long for the next one.

Not only that, but, at many Fastrack stops, satellite technology allows displays to show the actual time of the next departure, giving reassurance that Fastrack is on its way and how many minutes it will be before it arrives.

- Simplified fares with the route split into zones, and set fares for travel within one zone or a combination of zones.
- Fastrack B provides frequent connections between the national rail network (via Greenhithe and Gravesend rail stations) and Eurostar services from Ebbsfleet International Station to continental Europe.
- We are always pleased to hear from our customers so if you would like to make a comment please contact Arriva's Customer Services Department on 0844 800 4411.

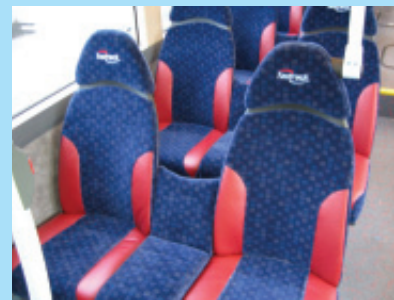

Exclusive vehicles. High standard of comfort.

- Latest styling presents a modern image, with a striking colour scheme for ease of identification
- CCTV cameras are fitted inside and out for the added security of both customers and drivers.

- Fully-accessible vehicles with a low entrance and no steps inside the front half. The entrance can be lowered to the level of low pavements if necessary.
- A ramp at the entrance allows wheelchairs, pushchairs and buggies to be easily wheeled on or off.

- Improved seating for extra comfort, with well-spaced seats and extra legroom.

- The latest electronic destination displays for improved visibility.
